** Subject to change annually due to material and supply chain constraints.*

*** Fuel/Oil costs average ~$375 per flight hr and are subject to market fluctuations. Pilot costs can vary from pilot to pilot based on their experience. Generally, daily rates from $1,500-$2,500 per day + expenses are good estimates for planning purposes.*

[1] Acquisition costs such as taxes, warranties, and legal registrations are estimated and included as part of the price.

[2] Taxes vary from state to state and county to county. Taxes will be calculated based on the location that aircraft is based.

[3] Acquisition costs borne by bop Aero to set up and manage each program aircraft.

[4] Cirrus SF50 Type training costs can vary. bop Aero's preferred SF50 training provider is Elite Aircraft Services (Elite) in Sanford, NC, for initial and recurrent type training. Please call for details.

[5] Pre-owned figures are illustrative planning values and are finalized from the selected aircraft, tax jurisdiction, JetStream status, connectivity configuration and transaction-specific costs.
