2026 SF50 OWNERSHIP PROGRAM OPTIONS

Pre-owned G1, G2, G2+ and New G3

Ownership Options at a Glance

Program	G1	G2	G2+	G3
Shares available	2	4	4	8
Legal equity / interest	33.33%	20.00%	20.00%	11.11%
Illustrative capital / share	~$1.216M	~$820K	~$929K	$542,794
Annual Program Fee / share	~$362K	~$195K	~$195K	$136,279
Relative schedule concentration	4.0x G3	2.0x G3	2.0x G3	1.0x
Scheduling / share	700 hrs or 140 days	350 hrs or 70 days	350 hrs or 70 days	175 hrs or 35 days
Connectivity	Depends on aircraft · aftermarket if capable	Included · aftermarket install, cost in program	Included	Included
Garmin Safe Return	Not included	Depends on aircraft · standard from 2020	Included	Included
bop Aero hourly-use fee	$0	$0	$0	$0

You own the aircraft. bop Aero manages it. There is no bop Aero occupied-hour fee to use an aircraft you already own.

Each program includes one equal ownership interest retained by bop Aero. Owner program costs are allocated across the shares available for purchase: 2 for G1, 4 for G2/G2+, and 8 for G3.

PROGRAM ECONOMICS COMPARISON

Acquisition & Capitalization

Every program is shown using the same line-item structure so ownership and capitalization can be compared directly.

Line Item	G1	G2	G2+	G3
Total ownership interests	3	5	5	9
Shares available for purchase	2	4	4	8
bop Aero retained interest	1	1	1	1
Legal equity per interest	33.33%	20.00%	20.00%	11.11%
Owner cost allocation	50% each	25% each	25% each	12.5% each
Aircraft acquisition value	~$1.9M	~$2.6M	~$3.1M	$3.685M
Connectivity installation	Depends on aircraft · aftermarket if capable	~$100K required	Included	Included
JetStream at acquisition	$389,900 ref.	$389,900 ref.	$389,900 ref.	$389,900
Estimated tax	~$133K	~$182K	~$217K	$257,950
Acquisition / closing / setup	~$9,500	~$9,500	~$9,500	$9,500
Total program capitalization	~$2.432M	~$3.281M	~$3.716M	$4.342M
Capital per available share	~$1.216M	~$820K	~$929K	$542,794

Illustrative figures for G1, G2 and G2+ are planning values and are finalized from the selected aircraft, tax jurisdiction, JetStream status, connectivity configuration and transaction-specific costs.

Annual Program & Operating Costs

Line Item	G1	G2	G2+	G3
Aircraft fixed-cost reference	$499,208*	$499,208	$499,208	$499,208
bop Aero management	$150,000	$180,000	$180,000	$240,000
Refresh / Future Value Reserve	$75,000	$100,000	$100,000	$351,020
Total annual program requirement	$724,208	$779,208	$779,208	$1,090,228
Available owner shares	2	4	4	8
Annual Program Fee / owner	$362,104	$194,802	$194,802	$136,279
bop Aero hourly-use charge	None	None	None	None
Fuel / oil / consumables	Actual cost	Actual cost	Actual cost	Actual cost
Crew, when required	Actual cost	Actual cost	Actual cost	Actual cost
Airport / handling	Actual cost	Actual cost	Actual cost	Actual cost
Artificial occupied-hour markup	None	None	None	None
Relative schedule concentration	4.0x G3	2.0x G3	2.0x G3	1.0x

As owner share count falls, schedule concentration increases. The annual fee rises because fixed aircraft costs are divided among fewer owners - not because bop Aero adds an hourly-use charge.

Operational costs are paid as incurred. Final annual pricing for pre-owned aircraft is established from actual aircraft-specific fixed costs, insurance, JetStream pricing and the applicable aircraft refresh reserve.

*The G1 Annual Program Fee shown uses the standard $499,208 fixed-cost planning allowance, including connectivity service. Connectivity capability is aircraft-dependent. If the selected aircraft cannot support connectivity, the applicable recurring internet service expense will be removed from the final Annual Program Fee. Any required aftermarket installation cost is added to program capitalization.

G1 - TWO-SHARE NEAR-EXCLUSIVE PROGRAM

Program Structure

1. Ownership Structure

Total ownership interests	3
Shares available for purchase	2
bop Aero retained interest	1
Legal equity per interest	33.33%
Owner cost allocation	50% per owner share
Relative schedule concentration	4.0x G3

2. Acquisition & Capitalization

Aircraft acquisition value	~$1,900,000
Connectivity installation	Depends on aircraft · aftermarket if capable
Connectivity capital allowance	$0 base assumption
JetStream acquisition reference	$389,900
Estimated tax	~$133,000
Acquisition / closing / registration	~$9,500
Total program capitalization	~$2,432,400
Capital per available owner share	~$1,216,200

3. Annual Program Economics

Aircraft fixed-cost reference	$499,208*
bop Aero management	$150,000
Aircraft Refresh Reserve	$75,000
Total annual requirement	$724,208
Available owner shares	2
Annual Program Fee / owner	$362,104

4. Operating Costs

bop Aero hourly-use charge	None
Fuel / oil / consumables	Owner actual operating cost
Crew, when required	Owner actual cost
Airport / handling costs	Owner actual cost
Artificial occupied-hour markup	None

5. Features

In-flight connectivity	Depends on aircraft · aftermarket if capable
Garmin Safe Return emergency autoland	Not included

6. Access

Two owner shares. Near-exclusive access with approximately four times the owner scheduling concentration of the G3 program. Each share may reserve up to 700 flight hours or 140 days at one time.

*The G1 Annual Program Fee shown uses the standard $499,208 fixed-cost planning allowance, including connectivity service. Connectivity capability is aircraft-dependent. If the selected aircraft cannot support connectivity, the applicable recurring internet service expense will be removed from the final Annual Program Fee. Any required aftermarket installation cost is added to program capitalization.

G2 - FOUR-SHARE HIGH-ACCESS PROGRAM

Program Structure

1. Ownership Structure

Total ownership interests	5
Shares available for purchase	4
bop Aero retained interest	1
Legal equity per interest	20.00%
Owner cost allocation	25% per owner share
Relative schedule concentration	2.0x G3

2. Acquisition & Capitalization

Aircraft acquisition value	~$2,600,000
Connectivity installation	Included · aftermarket install, cost in program
Connectivity capital allowance	~$100,000
JetStream acquisition reference	$389,900
Estimated tax	~$182,000
Acquisition / closing / registration	~$9,500
Total program capitalization	~$3,281,400
Capital per available owner share	~$820,350

3. Annual Program Economics

Aircraft fixed-cost reference	$499,208
bop Aero management	$180,000
Aircraft Refresh Reserve	$100,000
Total annual requirement	$779,208
Available owner shares	4
Annual Program Fee / owner	$194,802

4. Operating Costs

bop Aero hourly-use charge	None
Fuel / oil / consumables	Owner actual operating cost
Crew, when required	Owner actual cost
Airport / handling costs	Owner actual cost
Artificial occupied-hour markup	None

5. Features

In-flight connectivity	Included · aftermarket install, cost in program
Garmin Safe Return emergency autoland	Depends on aircraft · standard from 2020

6. Access

Four owner shares. Approximately twice the owner scheduling concentration of the G3 program. Each share may reserve up to 350 flight hours or 70 days at one time.

Every G2 program aircraft will have in-flight connectivity. If not already equipped, the approved aftermarket installation is completed before entry into service and capitalized into the program.

G2+ - FOUR-SHARE LATER-GENERATION PRE-OWNED PROGRAM

Program Structure

1. Ownership Structure

Total ownership interests	5
Shares available for purchase	4
bop Aero retained interest	1
Legal equity per interest	20.00%
Owner cost allocation	25% per owner share
Relative schedule concentration	2.0x G3

2. Acquisition & Capitalization

Aircraft acquisition value	~$3,100,000
Connectivity installation	Included
Connectivity capital allowance	No additional retrofit
JetStream acquisition reference	$389,900
Estimated tax	~$217,000
Acquisition / closing / registration	~$9,500
Total program capitalization	~$3,716,400
Capital per available owner share	~$929,100

3. Annual Program Economics

Aircraft fixed-cost reference	$499,208
bop Aero management	$180,000
Aircraft Refresh Reserve	$100,000
Total annual requirement	$779,208
Available owner shares	4
Annual Program Fee / owner	$194,802

4. Operating Costs

bop Aero hourly-use charge	None
Fuel / oil / consumables	Owner actual operating cost
Crew, when required	Owner actual cost
Airport / handling costs	Owner actual cost
Artificial occupied-hour markup	None

5. Features

In-flight connectivity	Included
Garmin Safe Return emergency autoland	Included

6. Access

Four owner shares. Approximately twice the owner scheduling concentration of the G3 program. Each share may reserve up to 350 flight hours or 70 days at one time.

G2+ combines the four-share high-access structure with later-generation pre-owned aircraft and standard connectivity.

G3 - NEW AIRCRAFT PROGRAM

Program Structure

1. Ownership Structure

Total ownership interests	9
Shares available for purchase	8
bop Aero retained interest	1
Legal equity per interest	11.11%
Owner cost allocation	12.5% per owner share
Relative schedule concentration	1.0x baseline

2. Acquisition & Capitalization

Aircraft acquisition value	$3,685,000
Connectivity installation	Included
Connectivity capital allowance	No additional retrofit
JetStream at acquisition	$389,900
Estimated tax	$257,950
Acquisition / closing / program setup	$9,500
Total program capitalization	$4,342,350
Capital per available owner share	$542,794

3. Annual Program Economics

Aircraft fixed-cost reference	$499,208
bop Aero management	$240,000
Future Value Reserve	$351,020
Total annual requirement	$1,090,228
Available owner shares	8
Annual Program Fee / owner	$136,279

4. Operating Costs

bop Aero hourly-use charge	None
Fuel / oil / consumables	Owner actual operating cost
Crew, when required	Owner actual cost
Airport / handling costs	Owner actual cost
Artificial occupied-hour markup	None

5. Features

In-flight connectivity	Included
Garmin Safe Return emergency autoland	Included

6. Access

Eight owner shares. The G3 establishes the 1.0x scheduling baseline and provides the broadest distribution of fixed program costs. Each share may reserve up to 175 flight hours or 35 days at one time.

G3 program pricing reflects the current new-aircraft shared-ownership structure.

FIVE-YEAR AIRCRAFT REFRESH / FUTURE VALUE RESERVE

Reserve Guidance by Program

The pre-owned programs use a different refresh approach than G3. G3 is designed to support replacement of a new aircraft with another new aircraft. G1, G2 and G2+ are designed to support the gap between the net resale proceeds of the existing aircraft and the cost of acquiring a newer pre-owned replacement.

Program	Working Aircraft Value	Annual Reserve	5-Year Reserve	Purpose
G1	~$1.9M	$75,000	$375,000	Used-to-used refresh
G2	~$2.6M	$100,000	$500,000	Used-to-used refresh
G2+	~$3.1M	$100,000	$500,000	Used-to-used refresh
G3	$3.685M new	$351,020	$1.755M	New-to-new replacement

How the Reserve Works

At aircraft selection, bop Aero evaluates current aircraft value, expected resale value and the observed market-value gap to a newer replacement aircraft. This establishes the refresh reserve appropriate to the selected aircraft and program.

The reserve is designed to preserve the program replacement cycle without adding a bop Aero hourly-use charge.

Annual Program Fee Ladder

Program	Owner Shares	Annual Program Fee	Schedule Concentration
G3	8	$136,279	1.0x
G2	4	$194,802	2.0x G3
G2+	4	$194,802	2.0x G3
G1	2	$362,104	4.0x G3

COST CONSIDERATIONS

Aircraft-Specific Variables

Final program pricing is confirmed from the selected aircraft. JetStream, insurance, installed equipment, connectivity, tax treatment, aircraft condition and the five-year refresh requirement can affect the final economics.

Sensitivity to Changes in Annual Aircraft Cost

Change in Annual Aircraft Cost	G1 Impact / Owner (2)	G2 / G2+ Impact / Owner (4)	G3 Impact / Owner (8)
$25,000	+$12,500	+$6,250	+$3,125
$50,000	+$25,000	+$12,500	+$6,250
$100,000	+$50,000	+$25,000	+$12,500

What Is Included in the Annual Program Fee

Category	Treatment
Aircraft fixed costs	Included in Annual Program Fee
bop Aero management	Included in Annual Program Fee
Refresh / Future Value Reserve	Included in Annual Program Fee
bop Aero occupied-hour charge	**None**
Fuel, oil and consumables	Actual owner operating cost
Crew, airport and handling	Actual owner operating cost, when applicable

Owners pay the actual cost of operating their aircraft. bop Aero does not add an occupied-hour charge for the privilege of using an aircraft the owners already own.

Illustrative pre-owned program figures are planning values. Final pricing is established in the applicable ownership and management agreements after the specific aircraft is selected.

HOW THE OWNERSHIP PROCESS WORKS

From Program Selection to Aircraft Entry Into Service

Step	What Happens
1. Choose your access level	Select G3, four-share G2/G2+, or two-share G1 based on aircraft generation, capital level and desired schedule access.
2. Establish aircraft criteria	bop Aero establishes the aircraft generation, equipment, connectivity and condition criteria for the selected program.
3. Confirm program economics	Aircraft-specific acquisition cost, JetStream, insurance, taxes, fixed costs and the refresh reserve are incorporated into final pricing.
4. Complete owner commitments	The required owner shares complete ownership documentation and fund the acquisition.
5. Acquire and onboard the aircraft	bop Aero acquires, equips and places the aircraft into service for the ownership group, including required connectivity for G2 and G2+.

Program Options at a Glance

Program	Shares Available	Capital / Share	Annual Program Fee	Schedule Concentration
G1	2	~$1,216,200	$362,104	4.0x G3
G2	4	~$820,350	$194,802	2.0x G3
G2+	4	~$929,100	$194,802	2.0x G3
G3	8	$542,794	$136,279	1.0x

Choose the ownership experience that fits your mission: current-generation aircraft with broad cost sharing, or pre-owned aircraft with fewer co-owners and greater schedule concentration.

Important Cost Notes

Program pricing and annual fees may change based on aircraft selection, taxes, insurance, JetStream, installed equipment and market conditions. Operational costs such as fuel, oil, crew and owner-pilot training are not included in the Annual Program Fee unless specifically stated. Final economics and program terms are established in the applicable ownership and management agreements.
